

REMARKS

Applicant adds new Claim 102 for examination. Therefore, the present application includes Claims 1, 2, 4, 6, 8-10, 13-16, 18, 38, 59, 77-102.

In new Claim 102, the following language was added to each of the first three paragraphs after the word "calculating": "each such point being conditioned by the recency and frequency of usage of the asset, as well as the current average of the ratings obtained by the asset from members other than the reviewer in the community." The original specification supports the foregoing language. Support for the newly amended language can be found in the specification as filed, as represented in published international application WO/2004/088446 at Page 4, lines 8 through 12, so that no new matter has been added to the specification.

Entry of the present amendment is respectfully requested.

I certify that the foregoing document and any document(s) referenced below are being filed electronically with the USPTO using the private PAIR system on the date stated below.

Dated: July 13, 2006

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Charles E. Bruzga".
